## PRESS ANNOUNCEMENT

### Prize-giving ceremony for the winners of Befesa's Charity Projects Contest

Befesa held the awards ceremonies of its Charity Project Contest in November, where representatives of each winning project collect their prize:

- "emacipaTEA" by the Autism Association of Sevilla (Spain). The award ceremony took place at the training center facilities, where we met a group of students and their monitors. They shared with us their ideas, experiences and motivations to achieve their professional goals with enthusiasm.
- "Sibling trip 2020 to Amsterdam" by the Kinder- und Jugendhospiz Regenbogenland organization in Düsseldorf (Germany). The award was given to a representative of the board of directors of the center. She gave us a guided tour throughout the hospice, where they work driven by their motto "we cannot extend the children's days of life, but we can give more life to their days".
- "Let's go to play petank" by the Bocce organization in Iskenderun (Turkey). A representative of Bocce received the award at the Befesa facilities. She highlighted the great help that the donation will have in launching the project as well as the amount of young people who will benefit from this prize.

These award ceremonies give Befesa the opportunity to get to know better the organization and human capital that supports each awarded project.

Befesa would like to thank all the people involved in each project as well as the employees who presented them, for their commitment and send its best wishes.
