

## **Are you looking for meaningful work and ready to put the circular economy into action?**

With us you are not just doing a job - you are helping the environment and preserving our resources. Our employees are a key factor for the daily operations of Befesa as well as for the strategic development and future of the company.

Join our team as an **Maintenance Engineer - Mechanical** at **Befesa Zinc Metal** in Mooresboro, North Carolina, United States and start immediately.

### **Your role and tasks:**

- Minimize plant down time, technician overtime hours, and maximize production
- Help troubleshoot daily breakdowns and provide general maintenance support
- Drive process improvement efforts to eliminate process waste, improve work quality and add value to business
- Coordinate review of vendor data/drawings to develop spare parts lists, reorder points and reorder quantities
- Maintain and improve CMMS database to streamline workflow
- Create, optimize and continuously improve preventative maintenance activities for plant equipment
- Lead Kaizan events
- Develop engineering improvements to optimize equipment run time and improve machine reliability
- Available after hours as needed for technical support
- Mechanical lead for capital and expense projects, ranging from \$50k - \$2 million

### **Your profile:**

- A minimum of a Bachelor's degree in Mechanical Engineering, with 3 years relevant experience in plant operations and/or construction is required
- Alternatively, an associate's degree in Mechanical Engineering, with a minimum of 6 years relevant experience in plant operations and/or construction is required

- A minimum of 3 years of experience within chemical or similar industry is preferred
- Experience with piping and pumping systems is required
- Prior experience with leading and supporting Capital or Expense Projects
- Experience with hydraulic systems strongly desired
- Experience with Lean principles strongly desired

**Befesa** is a leading international provider of environmental, services to the steel and aluminium industries with facilities located in Germany, Spain, Sweden, France, as well as in the USA, China, South Korea and Turkey. Contributing to a more sustainable world is at the core of Befesa's business. Employing more than 1.800 people with the main headquarters in Germany and Spain, Befesa is considered as one of the leading companies in the growing ESG/sustainability theme.
