Description:

Befesa is a leading international provider of environmental, services to the steel and aluminium industries with facilities located in Germany, Spain, Sweden, France, as well as in the USA, China, South Korea and Turkey. Through its two business units, Steel Dust and Aluminium Salt Slags Recycling Services, Befesa plays a relevant role in the circular economy by managing and recycling around 2 million tonnes of residues annually, with a production of around 1.5 million tonnes of new materials as of 2021, which Befesa reintroduces in the market, reducing the consumption of natural resources. Contributing to a more sustainable world is at the core of Befesa's business. Further information can be found on the company's website: www.befesa.com

After its IPO on the Frankfurt Stock Exchange in 2017, Befesa entered the SDAX in Sept 2018 and the MDAX in Sept 2021. Employing more than 1,500 people with the main headquarters in Germany and Spain, Befesa is considered as one of the leading companies in the growing ESG/sustainability theme.
